## WON'T PRESS A VOTE

Friends of the Hawaiian Treaty  
Doubtful of Its Ratification.

## FOSTER'S MISSION A SUCCESS.

Pension Decision Rendered Making Seven Years' Absence a Fair Presumption of Death—Two Schedules of the Tariff Bill Completed—Weyer Denounced in the House as a Thief and Murderer.

WASHINGTON, June 18.—The impression is now prevalent in the senate even by the friends of Hawaiian annexation that the treaty cannot be ratified at the present session if there is any such opposition as is promised. The programme now is that the treaty will be reported from the committee and when the tariff bill has passed it will be called up. The senate will be asked if a time for a vote can be fixed and upon the objections by the opponents of the treaty its friends will say they are content to allow it to lie over until the next session. One reason for not pressing the treaty in the face of opposition is that the sentiment which may be only partially opposed to the treaty will be crystallized which is not desirable. It is also believed that senators who are now undecided may become influenced favorably after mature consideration and after finding out what the drift of sentiment is in their states. It is well known that senators cannot be held here after the tariff bill is passed in the hot weather.

## CONGRESSIONAL

Two Entire Schedules of the Tariff Bill Completed Yesterday.  
WASHINGTON, June 18.—The senate made greater progress yesterday on the tariff bill than any day since the debate opened. Two entire schedules, covering 20 pages, were completed, namely, schedules H on spirits, wines and beverages and schedule I on manufactured cotton goods. This brings the senate to the flax schedule, with the important wool schedule standing next.

The portion of the bill passed is substantially the same as that reported, all committee changes being unimportant, while the opposition amendments of Mr. Jones of Arkansas and Mr. Vest were systematically rejected by majority varying from five to 10. Mr. Allison secured the addition of a new paragraph to the cotton schedule with a view to compensating the cotton manufacturers for the recent action of the senate in placing raw cotton on the dutiable list.

**House Proceedings.**  
The house was in session an hour and a half yesterday, most of the time being taken up with rollcalls. Mr. Sulzer (Dem., N. Y.) succeeded in injecting into the proceedings a brief speech in favor of Cuba in which he denounced Weyer as a "thief" and "murderer." The bill for the relief of the residents of Greer county, Oklahoma, was passed. The house adjourned till Monday.

## PENSION DECISION.

Seven Years' Absence Sufficient Presumption of Death.

WASHINGTON, June 18.—Assistant Secretary Davis of the interior department has rendered a decision that will affect many claims for pensions. He reversed the action of the pension office in the case of Catharine Gerzonin (a widow of a soldier in the Ohio infantry) which rejected the claim for pension because there was no proof of the death of the soldier. Gerzonin left home in July, 1896 since which time nothing has been heard from him. The assistant secretary holds that further inquiry should be made concerning the man and if nothing is thereby developed throwing additional light on the case death may be presumed under act of March 13, 1896, making seven years' absence from home, without intelligence of his existence, sufficient for a presumption of death.

## HIS MISSION A SUCCESS.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages, and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to  
the medical fraternity. Catarrh being  
a constitutional disease, requires a con-  
stitutional treatment. Hall's Catarrh  
Cure is taken internally, acting directly  
upon the blood and mucous surfaces of  
the system, thereby destroying the  
foundation of the disease, and giving  
the patient strength by building up the  
constitution and assisting nature in do-  
ing its work. The proprietors have so  
much faith in its curative powers, that  
they offer one hundred dollars for any  
case that it fails to cure. Send for list  
of testimonials. Address:

## B. & O. S. W. OFFICIALS

Elated Over the Capture of the Would Be  
Train Wreckers.

The officials of the Baltimore and Ohio  
Southwestern Road are highly elated  
over the capture of the men who at-  
tempted to wreck the express train on  
the B. & O. S. W., near Salem, Ill's,  
Wednesday night. The train which  
leaves St. Louis at 8:30 p. m., is due at  
Cincinnati at 7:20 in the morning, and  
reaches the point where the attempt  
was made to wreck it about 11 o'clock  
at night.

The place selected to commit the  
crime was on a culvert, and a lot of ties  
were piled on the track to derail the  
train. The officials of the road say that  
it was the intention to wreck the train  
and rob the express and mail cars and  
the passengers. The B. & O. S. W. offi-  
cials received word yesterday morning  
that the third man who took part in  
the wreck, and who escaped, had been  
captured, and that all the men are now  
in jail at Salem.

The Baltimore and Ohio Southwestern  
Company will have no mercy on the  
rascals, but will prosecute them and  
see that they get the full penalty for  
the dastardly attempt to commit murder  
and robbery.

The passengers on the train did not  
know of the attempt that was made by  
the wreckers, as the obstructious were  
removed from the track and the train  
came through as though no such attempt  
had been made.

"There's no use in talking," says W.  
H. Broadwell, druggist, La Cygne, Kas.,  
"Chamberlain's Colic, Cholera and Diar-  
rhoea Remedy does the work. After  
taking medicines of my own preparation  
and those of others I took a dose of  
Chamberlain's and it helped me; a second  
dose cured me. Candidly and con-  
scientiously I can recommend it as the  
best thing on the market." The 25 and  
50 cent sizes for sale by C. W. Milhous.

## A Wholesome Soap.

Toilet soap, to be good, should be  
as wholesome as food. The skin is as  
sensitive as the stomach, and is as  
easily affected by impure soap as the  
stomach is by unwholesome food. With  
this fact in view, Alpha Cox, the  
druggist, recently engaged one of the  
most reliable soap makers in the  
United States to prepare a special  
toilet soap for his trade. The soap  
has been received at his pharmacy, and  
it proves to be all that the proprietor  
desired in a toilet soap. It is a pure,  
perfumed soap, agreeable to the skin,  
and one which, having once been used, will  
be used again, and cheerfully recommended to friends.  
When you are purchasing toilet requisites  
again, bear in mind Cox's Special Skin Soap.  
Ten cents a cake; 3 cakes in box. 30c

**John R. McLean's Great Newspaper.**

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and covered testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

**Read! Read! Read!**

**REASONS why you should read the Cincinnati Daily TIMES-STAR:**

It has the latest and most reliable foreign as well as domestic news; it has better financial and market reports and more special correspondents than any other Cincinnati newspaper;

It is a family paper, and has the largest home circulation of any paper printed in the Ohio Valley.

"Business is picking up everywhere," said President Ingalls, of the Big Four and Chesapeake & Ohio. ## WON'T PRESS A VOTE

Friends of the Hawaiian Treaty  
Doubtful of Its Ratification.

### FOSTER'S MISSION A SUCCESS.

Pension Decision Rendered Making Seven Years' Absence a Fair Presumption of Death—Two Schedules of the Tariff Bill Completed—Weyler Denounced in the House as a Thief and Murderer.

WASHINGTON, June 18.—The impression is now prevalent in the senate even by the friends of Hawaiian annexation that the treaty cannot be ratified at the present session if there is any such opposition as is promised. The programme now is that the treaty will be reported from the committee and when the tariff bill has passed it will be called up. The senate will be asked if a time for a vote can be fixed and upon the objections by the opponents of the treaty its friends will say they are content to allow it to lie over until the next session. One reason for not pressing the treaty in the face of opposition is that the sentiment which may be only partially opposed to the treaty will be crystallized which is not desirable. It is also believed that senators who are now undecided may become influenced favorably after mature consideration and after finding out what the drift of sentiment is in their states. It is well known that senators cannot be held here after the tariff bill is passed in the hot weather.

### CONGRESSIONAL

Two Entire Schedules of the Tariff Bill Completed Yesterday.

WASHINGTON, June 18.—The senate made greater progress yesterday on the tariff bill than any day since the debate opened. Two entire schedules, covering 20 pages, were completed, namely, schedules H on spirits, wines and beverages and schedule I on manufactured cotton goods. This brings the senate to the flax schedule, with the important wool schedule standing next.

The portion of the bill passed is substantially the same as that reported, all committee changes being unimportant, while the opposition amendments of Mr. Jones of Arkansas and Mr. Vest were systematically rejected by majorities varying from five to 10. Mr. Allison secured the addition of a new paragraph to the cotton schedule with a view to compensating the cotton manufacturers for the recent action of the senate in placing raw cotton on the dutiable list.

### HOUSE PROCEEDINGS.

The house was in session an hour and a half yesterday, most of the time being taken up with roll calls. Mr. Sulzer (Dem. N. Y.) succeeded in injecting into the proceedings a brief speech in favor of Cuba in which he denounced Weyler as a "thief" and "murderer." The bill for the relief of the residents of Greer county, Oklahoma, was passed. The house adjourned till Monday.

### PENSION DECISION.

Seven Years' Absence Sufficient Presumption of Death.

WASHINGTON, June 18.—Assistant Secretary Davis of the interior department has rendered a decision that will affect many claims for pensions. He reversed the action of the pension office in the case of Catharine Gerzonin (a widow of a soldier in the Ohio infantry) which rejected the claim for pension because there was no proof of the death of the soldier. Gerzonin left home in July, 1866 since which time nothing has been heard from him. The assistant secretary held that further inquiry should be made concerning the man and if nothing is thereby developed throwing additional light on the case death may be presumed under act of March 12, 1866, making seven years' absence from home, without intelligence of his existence, sufficient for a presumption of death.

### HIS MISSION A SUCCESS.

Ex-Secretary Foster Cables the Government from St. Petersburg.

WASHINGTON, June 18.—A cablegram received at the state department from ex-Secretary Foster, who has been at St. Petersburg engaged in negotiations with the Russian government for the better protection by mutual agreement of the seal life in the north Pacific and Bering sea, announces the complete success of his mission. The commissioner is now on his return to the United States.

### LILIAKALANI PROTESTS.

WASHINGTON, June 18.—Late yesterday ex-Queen Liliakalani filed a protest

Mr. Heleluha was accompanied by Captain Julius Palmer, the American secretary of Liliakalani. Mr. Sherman treated the bearers most courteously, but gave no indications of his action in the matter.

### Refused Permission to Land a Cable.

WASHINGTON, June 18.—The president has refused permission to the Compagnie Francaise Cables Telegraphique to land the new cable of that company at Cape Cod or indeed anywhere upon the United States coast. The executive branch of the government holds to the doctrine that such landing can be only by express authorization of congress.

President McKinley Will Take Part in the Unveiling Ceremony.

CHICAGO, June 18.—President McKinley and his cabinet will come to Chicago to take part in the unveiling of the John A. Logan statue in the Lake Front park. The president will review a procession of veterans on the day that promises one of the biggest in recent years, the longest line of regiments from the regular army that has marched since the war, the entire Illinois militia or 7,000 men and the governors and their staffs from many other states.

Of this amount, it is said, over one half has been made good to the company. The company has decided to send out a paycar between Kansas City and Chicago, the first sent out in three years.

### BRIEBRY ATTEMPTED.

Town Trustee Alleges That He Was Offered Money to Vote For a Franchise.

JONESBORO, Ind., June 18.—A sensation has been caused by the assertion of A. J. Miller, a member of the town board, that an attempt had been made to bribe him in the interest of the Clod-felter electric lines, which desire a franchise through the town over a certain street. Miller says that one man approached him and offered him \$25 and that another offered him \$50 to the same end. The matter has been laid before the town board and investigation, exposure and prosecution are promised as soon as the franchise question has been disposed of.

### HUNTINGTON POLICE BOARD.

HUNTINGTON, Ind., June 18.—The city council has instructed the city attorney to apply for an injunction restraining the newly appointed metropolitan board of police commissioners from taking their seats, on the ground that the census was padded on which the appointments were made by the governor, and that Huntington has not the requisite population entitling her to a metropolitan police system.

Many women live under a constant cloud of gloom and depression. The weariness and weakness caused by some ailment of their sex is like an overhanging demon of disaster always ready to descend upon them.

The average doctor cannot help them much. He has not time to become a specialist and learn the best treatment for these delicate troubles. He relies upon "local treatment."

Dr. Pierce's Favorite Prescription, one bottle of Dr. Pierce's Pellets and the local home treatment he advised. Before my wife had used the first bottle of the medicine she felt the good effect and said one bottle would be enough. I insisted on her using two bottles, and she did so. Now she is sound and well, and I can praise your medicine to the extreme.

Dr. J. C. Watson, of Galt, Galt Co., Tex., writes: "My wife suffered from cold feet and fainting spells, heaviness and soreness in the lower part of the stomach, also heart trouble, loss of appetite, dired feelings, restlessness, could not sleep. I tried five doctors. None of them gave her relief. She suffered five years. She was helpless—could not walk from the bed to the fire-place. Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MR. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 8, 1896: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

The wings of the democratic party are not "flopping together" now any better than they did a year ago.

The Sultan evidently thinks he has completely recovered from his illness. He has increased his war footing to 700,000 men.

THE REPUBLICAN was the only paper in Seymour yesterday to publish a report of the populist convention at North Vernon. It costs money to get the news but our patrons appreciate an up-to-date paper.

The residents on West Branch street have a right to complain because of the condition of the sewer in that part of town. The committee to which was referred the matter of their petition should give it immediate attention and in a way to afford relief.

THE NEWSPAPER men who accompanied President McKinley on his recent trip through the south are unanimous in praising the loyalty and patriotism of the southern people as shown by their treatment of the president, irrespective of party, and in admiration of his uniform courtesy and kindness toward all classes and conditions of people.

DURING McKinley's visit to Nashville centennial last week, a company of confederate veterans acted as his escort to the exposition grounds. During the war these men were enemies of the cause for which the president fought and in the political battles since they have been found on the opposing side. This action speaks more significantly than words that, though defeated they recognize in McKinley the president not of one section or of one party but of the whole Nation of which they as well as the victors form a part. It bespeaks the unity of purpose and the fraternal feeling which is rapidly coming between the once divided sections of our land. And this feeling will be further strengthened, as the ties of friendly and commercial interests are increased.

John H. Swamy, an honest and up right man and reputable citizen, died at 10:30 o'clock Thursday night, June 17, 1897, at his home two miles west of Hayden, of Bright's disease, in the seventy-ninth year of his age. Mr. Swamy was born April 8, 1818, near Readington. He has resided all his life in Jackson and Jennings counties. He was industrious and was highly respected by all who knew him. He leaves four daughters and seven sons who have the profound sympathy of their many friends. The funeral will take place at 9:30 o'clock tomorrow morning. Burial near his home. Religious services will be conducted by Rev. J. M. Swarthout.

PLAIN TALK.

Inconsistency of Some of The Opponents of The Tariff Measure.—Progress Being Made.

WASHINGTON, D C, June 18.—There has been some plain talk in Washington this week. People have grown extremely anxious about legislation and have been firing shots at their members of congress by the thousand. These little evidences of the attention of the dear public have set people saying some plain things. So the public is liable to get some information which it would otherwise not have obtained.

SHARP TALK IN THE SENATE.

There has been some especially sharp talk in the senate and some of the people who are seeking to make political capital by throwing dust with reference to the pending tariff bill have suddenly discovered that there are two sides to almost any story. Two or three democratic leaders seem to have reached the conclusion that they could once more fool the people, and that their most convenient way to do it would be to charge that the sugar schedules of the tariff bill as agreed upon by the republican caucus were favorable to the sugar trust. So they proceeded upon the "stop thief" plan to make all sorts of malicious charges of this kind, taking advantage of the fact that republicans in the senate have been refusing to discuss any features of the bill not absolutely necessary to be explained, simply for the purpose of gaining time and getting the bill through as promptly as possible. The gentlemen have found, however, that that there is a limit to the endurance of the public who are being imposed upon with this sort of falsehood, and the newspapers of the country have suddenly revived the fact that the very men who are now shouting sugar trust with reference to the pending bill are the ones under whose guidance the "perfidy and dishonor" bill of 1894 was framed and its sugar schedule so shaped as to create the greatest scandal that has been known in political history in many years. Attention is called to the fact that the three men Senators Vest, Jones and Mills, whose mouthings about an increase in prices of sugar-trust stock as a result of the pending tariff bill have been the features of the week, are the very men who framed the sugar schedules of the Wilson bill under which sugar-trust stocks advanced 66 per cent., while the advance during the entire consideration of the present bill is only 6 per cent. and this a mere incident of the general advance which has been strongly marked meantime in all stocks. That the three men whose manipulations in the schedules of the Wilson bill caused an advance of 66 per cent. in the price of sugar stocks should now be screaming like madmen because sugar stocks have increased 6 per cent. during the consideration of the present bill would be unaccountable but for the fact that they are apparently doing it to not only make political capital, but at the same time conceal as far as possible their own records in this very line.

GETTING BACK TO HOUSE SCHEDULES.

An interesting feature of the weeks' developments has been the tendency on the part of the senate republicans to return to the schedules of the Dingley bill. Nearly all the important schedules of the House bill have been restored as they have been reached one by one until the only important one now remaining is that relating to wool. And there is every reason to believe that when this is reached the House rates on first and second class wools will be restored. The sugar schedule has been brought down to within a mere trifle of the House rates, and by many it is believed that the absolute lines of the House bill in this regard will be restored before the bill gets upon the statute books.

IS THERE UNNECESSARY DELAY?

On one other subject there has been some plain talk and some which the people ought generally to hear. That is with reference to the length of time congress has occupied upon the tariff bill. The people generally have grown very impatient over the apparent delay in obtaining final action upon the pending tariff bill. This impatience is being encouraged by democrats, populists, silverites, and everybody else who is opposed secretly or openly to President McKinley and the republican party. The fact is, however, that no congress since the first one ever made the progress which this one has made, especially in view of the circumstances. There is every reason to believe the bill will be upon the statute books early in July.

INTO CHICAGO RIVER

Suburban Passenger Train Plunges Into the Murky Stream.

DRAW BRIDGE IS LEFT OPEN.

Engine and One Car Carried Beneath the Surface—Was Moving Slowly or the Entire Train Must Have Gone In the River—Fifteen People Carried Into the Water—Six Injured.

CHICAGO, June 18.—A northbound suburban train on the Chicago, Milwaukee and St. Paul road ran into the Chicago river last night at Kinzie street. Six men were hurt but it is not expected that any of them will die. Following is a list of the injured:

Elmer Goshorn, brakeman, hurt about side and arms.  
Frank G. Cleveland, engineer, hole torn in right leg.  
William E. Stevens, fireman, hurt in side and arms.

George Upchurch, passenger, bruised in side.  
J. M. Merkely, bruised about chest.  
Unknown man, hurt in chest and slightly injured.

The train, which consisted of the engine and two cars, the first being a combination smoking and baggage car and the second a regular passenger coach left the depot at 9:50 and five minutes later the engine and first car were under the surface of the Chicago river.

The railroad crosses the river at Kinzie street which is not over one quarter of a mile north of the depot and the train was consequently moving slowly. But for this fact the entire train must have gone into the river and the loss of life been heavy as the passenger coach which did not go in contained about 30 passengers.

The trains always stop an instant before going upon the bridge and last night Engineer Cleveland came to a stop about 200 feet south of the bridge. The lights were all right, signalling that the draw was closed and he started up again. In a minute he saw through the darkness the shape of the bridge standing open and made desperate efforts to stop the train. It was too late, however, and the engine plunged into the open draw, dragging with it the first car.

The accident, according to James Harrington, the bridge tender, was due entirely to the arrangement of the lights on the bridge. Harrington said that he had opened the bridge for the passage of a tug with a mudsow, and was just swinging the bridge shut when the train came on. He claimed that the engineer had caught an oblique glance at the light instead of a look full at its face. He easily proved his case by swinging the bridge into the position it occupied when the train ran over the edge, and the accident seems to have been caused entirely by the light. About 15 people, including the trainmen, were carried into the water, but all were saved without difficulty.

A. R. U. DEAD.

Debs and His Followers Create the Social Democracy of America.

CHICAGO, June 18.—The American Railway Union was yesterday formally adjudged by E. V. Debs and his followers to be a corpse and the Social Democracy of America is the name of the organization which is to take its place. This was quickly settled at the meeting of the A. R. U. delegates yesterday, but when it came to the declaration of principles under which the social democracy is to exist there was trouble from the start. Six hours of wordy war terminated, however, in the adoption of the platform on which the Social Democracy is to stand.

MOSQUITO BITE.

Man Becomes Insane From the Effects of One.

NEW YORK, June 18.—The bite of a mosquito was the cause of a man being sent to the insane pavilion at Bellevue hospital yesterday. Carmine Lepre, a bootblack, 42 years old, a few days ago was bitten on the hand by a mosquito. He scratched it until it bled. Blood poisoning ensued and he took to his bed and acted so irrationally that he was sent to Bellevue. This is perhaps the first case on record of insanity from a mosquito bite.

GOING TO MINNESOTA.

Governor and Mrs. Tanner Will Spend a Month in the North.

SPRINGFIELD, Ill., June 18.—Governor and Mrs. Tanner will vacate the executive mansion tomorrow in order to permit the repairs provided for by the legislature to be made, and will spend a month at the grounds of Miltona club, in northern Minnesota. Governor Tanner has notified Lieutenant Governor Northcott of his intended absence from the state and has invited him to act as governor during that time.

Victims of a Hotel Fire.

ALBANY, June 18.—While cleaning away the ruins of the Delevan House, which was burned on Dec. 31, 1894, workmen yesterday found the remains of three bodies. The remains were only half buried. They were identified as the bones of Mary Caray, Bridget Fitzgibbons and Thomas Cannon. They were hotel servants. Of the 14 persons who lost their lives in the fire all have now been accounted for except Noguta Sturca, a servant.

Trump Millionaire Indicted.

MOUNT VERNON, Ill., June 18.—James E. Berry, the "trump millionaire," has been indicted by the grand jury for wife abandonment. The case will come up at this time of court, now in session. In the meantime Mr. Berry rides around in the streets all day and evening, followed by a crowd.

HAS MUCH TROUBLE.

Sold Teachers' State Examination Papers and Is Convicted.

WESLEYVILLE, Ky., June 18.—H. M. Fultz of this city, who was arrested here on a warrant sworn out by Professor W. R. Hays of Hindman, Knott county, charging him with selling state examination papers to school teachers, has been convicted and fined \$75. Civil actions have been instituted to recover the amounts paid to him for examination papers and his cash was attached in the jailer's hands.

The additional charge of carrying concealed weapons was lodged against Fultz and he was sent back to jail where he now is. It is believed that some official connected with the educational department has been furnishing Fultz with the papers.

Counterfeiters Captured.

VICKSBURG, Mich., June 18.—Jerome Tompkins, Charles Lyon and Doris Holiday have been arrested here on charges of counterfeiting. The molds and 13 silver dollars were found in Tompkins' barn. All the parties are lodged in the Kalamazoo jail and Tompkins has made a full confession. Their intention was to pass the spurious coin at the celebration of the L. A. W. races here July 3.

An Escaloped Fish.

An escaloped fish which Miss Parlos gives as an especial dainty at her cooking classes is made (the proportions are easily doubled for a larger quantity) from a pint of cooked fish, free from bones and skin, a teaspoonful of salt, one-quarter teaspoonful of pepper, a tablespoonful of butter, one-half teaspoonful of flour, 1½ gills of milk (this is a little less than a cupful) and 4 tablespoonfuls of grated bread crumbs. Season the fish with half the salt and pepper. Put a generous half of the butter in a small saucepan on the fire. When it is hot, add the flour and stir till the mixture is smooth and frothy. Boil up once and stir in the rest of the seasoning. Put a layer of the sauce in a small baking dish, alternating with the fish, having sauce on top. Sprinkle over with the bread crumbs and dot with the rest of the butter. Bake in a moderately hot oven 20 minutes. The caution was added that any dish made with sauce and crumbs needs that the heat should be moderate at the bottom and strong at the top. The difference between dried bread crumbs and stale bread grated was also accentuated. In this dish the latter is obligatory.—New York Post.

B. & O. S. W. OFFICIALS. Elated Over the Capture of the Would Be Train Wreckers.

The officials of the Baltimore and Ohio Southwestern Road are highly elated over the capture of the men who attempted to wreck the express train on the B. & O. S. W., near Salem, Ill., Wednesday night. The train which leaves St. Louis at 8.30 p. m., is due at Cincinnati at 7.20 in the morning, and reaches the point where the attempt was made to wreck it about 11 o'clock at night.

The place selected to commit the crime was on a culvert, and a lot of ties were piled on the track to derail the train. The officials of the road say that it was the intention to wreck the train and rob the express and mail cars and the passengers. The B. & O. S. W. officials received word yesterday morning that the third man who took part in the wreck, and who escaped, had been captured, and that all the men are now in jail at Salem.

The Baltimore and Ohio Southwestern Company will have no mercy on the rascals, but will prosecute them and see that they get the full penalty for the dastardly attempt to commit murder and robbery.

The passengers on the train did not know of the attempt that was made by the wreckers, as the obstructions were removed from the track and the train came through as though no such attempt had been made.

"There's no use in talking," says W. H. Broadwell, druggist, La Cygne, Kas., "Chamberlain's Colic, Cholera and Diarrhoea Remedy does the work. After taking medicines of my own preparation and those of others I took a dose of Chamberlain's and it helped me; a second dose cured me. Candidly and conscientiously I can recommend it as the best thing on the market." The 25 and 50 cent sizes for sale by C. W. Milhaus.

A Wholesome Soap. Toilet soap, to be good, should be as wholesome as good. The skin is as sensitive as the stomach, and is as quickly affected by impure soap as the stomach is by impure food. With this fact in view, Alpha Cox, the druggist, recently engaged one of the most reliable soap makers in the United States to prepare a special skin soap for his trade. The soap has been received at his pharmacy, and it proves to be all that the proprietor desired in so essential an article of the toilet—a pure, perfumed soap, agreeable to the skin, and one which, having once been used, will be used again, and cheerfully recommended to friends. When you are purchasing toilet requisites again, bear in mind Cox's Special Skin Soap. Ten cents a cake; 3 cakes in box, 25c.

### John R. McLean's Great Newspaper.

Without a single exception, there is beyond doubt no greater or more popular newspaper in the United States than the Cincinnati Enquirer; or a more successful publisher than its proprietor, Mr. John R. McLean.

The old-time prices for the Daily Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own opinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper journal cannot afford.

The very liberal support given the Enquirer by the public at large, makes incumbent upon the management to serve it faithfully with zeal and enterprise in minor matters as well as those of greater magnitude.

### COUNCIL MEETING.

The regular bimonthly meeting of the city council was held in the council chamber last night. Though the mercury would have registered about 90 at any point in the semicircle in front of the mayor the council remained in session until 10 o'clock.

After the minutes were read and adopted reports from the standing committees were called for.

Chairman Miller, of the finance committee, reported that the committee had examined into the matter of Panta Factory exemption and found that the resolution passed in 1895 was before their present building was built, therefore it would not be exempt from taxation under this resolution.

Bids for the construction of sewer on 2nd street and Indianapolis avenue were opened. Two bids, one from Hamer & Stewart and one from William Railing, were submitted. The latter's bid being the lowest the contract was awarded to him. His bid was 69 cents per lineal foot for 20 inch tile, including one 12 inch T, and 41 cents per lineal foot for 12 inch tile used, including 12 six inch T's.

The contract to put down the cement sidewalk on west side of Indianapolis avenue between 4th and 5th streets and 2nd and 3d streets was awarded to Frank Lucas at 10 cents per square foot his bid being the lowest.

Relative to the plat of J. H. Peter's new addition to the city of Seymour, the city attorney had examined the plat and found it correct and committee approved same. Report of committee adopted and plat ordered to be made a matter of record in recorder's office.

A petition of property owners on west Branch street calling attention to bad condition of sewer in that locality was read after some discussion revealing the reasonableness of the demands of the petitioners, the matter was referred to the judiciary committee and civil engineer.

The civil engineer's written report showed that William Wainwright had completed grading South Vine street according to contract. Report adopted and clerk ordered to issue bills of assessment for payment of same.

Engineer also reported that J. H. Peters was willing to have overflow water at west end of 6th and 7th streets drained through his premises. Matter referred to judiciary committee and city attorney.

### Mr. Ingall's Views.

"Business is picking up everywhere," said President Ingalls, of the Big Four and Chesapeake & Ohio. "The best evidence of that fact is that the railroads are hauling more cars and loaded ones at that. All over the country there is general improvement in business, and I believe it will continue to grow. The farmer, all over, is selling his produce and hogs higher now than in some time past. The crops in the west promise to be enormous and factories and mills are starting up in different sections."
